

Assistant Director for Operations

20 February 1952

Chief, Foreign Documents Division

Effect of Proposed Ceiling Restriction on FDD

1. FDD has never had sufficient personnel to meet the requirements served on the Division. At the present time only the top 20% of the intelligence information needed by the consumer offices from foreign publications can be reported.

2. Translation Service

The proposed ceiling, eliminating the use of [ ] [ ] will make it impossible for FDD to provide approximately 6,000 pages of classified translation service.

25X1

3. Exploitation

The proposed ceiling will make it impossible to publish approximately 1,000 pages of reports for the year and reduce the exploitation research effort by approximately 7% of its potential with full authorized T/O.
